**ARCTICSTORE**

# COST EFFECTIVE STORAGE

*- perfect for a variety of products*

Starting with 58 m<sup>2</sup> and increasing with 29 m<sup>2</sup> per unit there is almost no limit on the size of the installation. Suitable for use inside, outside or connected to buildings.

Using purpose design and manufactured 40' container modules Arctic SuperStore combine the many advantages that containers have with the flexibility of wide body storage modules and more.

The Super2 model has 42 UK/51 EU pallet capacity. If you are short of space SuperStore can be stacked on top of each other.

### Arctic SuperStore feature:

- Stainless steel walls and anti-slip aluminum floors
- Floors strong enough for use with suitable fork lifts and electric/hydraulic pallet trucks
- 25T capacity per module (evenly distributed)
- 220V LED fluorescent internal lights
- Easy to operate doors with internal/external operation.
- Butchers door as option.
- Sliding strip curtain
- Person trapped alarm

### Robust exterior

- MG stainless steel panels
- Corten steel frame
- Hempel's marine paint system
- Self-extinguishing 365 blowing agent insulation

### Optional features

- Remote monitoring
- Loading bay height
- External lighting at door end
- Shelving, meat rails and other inventory

### Financial advantages

High insulation values reduce the machinery's need to work. Low lorry mounted crane delivery and collection costs. Prompt nationwide availability.

### Additional advantages

- Economy mode for chill storage temperatures saving even more power
- Machinery incorporates the latest technology/software to minimize power consumption
- Flush fitting machines with no loss of internal capacity

*Inside Arctic SuperStores*

**WORLDWIDE DELIVERIES**

*40ft SuperStore being installed*

- Self diagnostic machinery
- Full opening double doors

Arctic SuperStore does the job.

The power saving gives you a real economic benefit every day, almost no downtime or need for call outs, time savings on staff and finally an almost perfect environment for your products and goods are all additional advantages. Bottom line; we believe there is nothing better!

Ask about ArcticStore if the SuperStore is too large, they are available at 10', 20' & 40'.

**Environmental issues**

All refrigeration machines are new technology with low power consumption ensuring the lowest possible operating costs.

To the best of our knowledge all our containers/portable cold stores are manufactured using ethical practices and controls.

**Need blast freezing or rapid chilling?**

SuperStores are now available as dedicated blast freezers/rapid chillers. ArcticBlast 5 model will freeze 20T meat in less than 24 hours or chill fruit and produce in no time. ArcticBlast is available as stand alone, or integrated in a storage SuperStore facility.

Dimensions in cm SuperStores 40ft (12 m)	external	internal		Super 2	Super 3	Super 5	Super 7	Super 9
<b>Length</b>	1219	1165	Width ext.	495	745	1245	1745	2245
<b>Height</b>	290	259	width int.	480	730	1230	1730	2230
<b>Recommended load height</b>		235	UK pallets	42	66	110	154	198
<b>Internal height at the joints</b>		241	EU pallets	51	85	142	199	256

*Also available as 20's and in 20' & 40' configurations.*
